WELCOME

TO

SIG NEXT

A one-of-a-kind innovation showcase and immersive product and brand experience that can only come from the global leader in small arms technology.

This year, SIG SAUER is launching new products across several major categories. Our team of engineers and product developers are using the latest in technology to create truly breakthrough innovations, pushing the industry forward and challenging the status quo.

The future of SIG is here. Step into what's next with SIG NEXT.

P385

MACH3D / COMP / FULL / CARRY / COMPACT

Introducing the SIG SAUER P385, a new era of performance, accuracy and innovation in striker-fired pistols.

Built with performance at its core, the P385 features the advanced MACH3D compensator, reducing muzzle rise by more than 30%, along with the new SIG Recoil Dampening System (SRDS) to dramatically reduce felt recoil for a softer, flatter, faster shooting experience.

The all-new design of the P385 features an extremely low bore axis for greater control and increased sight picture along with a SIG LOC optic ready slide and precision cut carbon steel barrel delivering extreme accuracy.

The P385 utilizes an innovative new Fire Control Unit and SIG Trigger Block for a smooth, clean trigger press. The new FCU pairs with the new MAGSTRAP grip module for fast easy customization both in grip length and hand size. The new laser-cut ReActive grip texturing delivers superior ergonomics and maximum contact and control. Built for performance, accuracy and innovation, the P385 also uses the combat proven standard P320 magazine for extreme reliability.

XRAY5™

ADVANCED RED DOT SIGHT

A category-defining optic that sets a new standard for durability, clarity, and intelligence.

Introducing the XRAY5™ Advanced Red Dot Sight, redefining what shooters should expect from a pistol optic. Built on an innovative solid-state architecture that features a 225-dot rigid matrix with no moving parts to wear or drift, the XRAY5 delivers unmatched durability and repeatable precision. Featuring SIG SAUER's patented Zero Distortion Optic (ZDO™) system for truly unmatched clarity, an intuitive digital zero process with the ability to store multiple profiles, and LightFight™ adaptive illumination that automatically responds to variable lighting conditions, the XRAY5 combines industry-leading optical performance with advanced digital capability—all in one uncompromising platform.

Precision Built. Precision Kept. The XRAY5 Advanced Red Dot Sight has set a new bar.

FOXTROT2R™ LIGHTFIGHT™

ADVANCED WEAPON-MOUNTED WHITE LIGHT

Illumination that thinks beyond the muzzle.

Introducing the new FOXTROT2R™ LightFight™, an Advanced Weapon Mounted White Light engineered to bring a new level of intelligence to your firearm. Featuring SIG SAUER's revolutionary LightFight™ technology, the FOXTROT2R LightFight wirelessly communicates with compatible XRAY5™ Advanced Red Dot Sights to automatically adjust reticle brightness based on the light at your target as opposed to the ambient light surrounding your optic. The result is faster target acquisition and optimal reticle visibility in the environments where traditional auto-brightness systems struggle.

Illuminate Faster. Engage Smarter. The FOXTROT2R LightFight has redefined what a weapon light should be.

FOXTROT2R™ LIGHTFIGHT™

700 LUMENS

- LIGHTFIGHT™ TECHNOLOGY AUTOMATICALLY INCREASES XRAY5 RETICLE BRIGHTNESS WHEN LIGHT IS ACTIVATED
- 700 LUMENS / 20,000 CANDELA
- UP TO 1.5 HOURS OF RUNTIME
- FLEXCORE™ DUAL-FUEL SYSTEM ACCEPTS RECHARGEABLE 16340 OR CR123A BATTERIES
- AMBIDEXTROUS ACTIVATION PADDLES WITH MOMENTARY, LATCHING, AND THRESHOLD MODES
- FOUR-POSITION SLIDING RAIL INTERFACE FOR CUSTOMIZABLE FIT
- ASSEMBLED IN THE USA

P211

FULL AND CARRY

The new P211 Carry and Full. Less weight. All the performance.

Introducing the new P211 Carry and Full-size pistols. Featuring lightweight polymer grips and aluminum frames, the Carry and Full-size deliver the same performance of the P211 platform with less weight for everyday carry or extreme duty.

Built for the most demanding conditions with zero sacrifices, the new P211 Carry and Full size deliver the same extreme accuracy, performance and reliability found in the GT4 and GT5, now designed with lightweight polymer grips and aluminum frames making them ready for the toughest, longest duty or the demands of your every day.

KILO™ MICRO

4X18MM MONOCULAR

The World's Smallest Laser Rangefinder. Built to Go Anywhere.

Minimal size. Maximum capability. The KILO™ MICRO 4x18mm Monocular delivers proven SIG SAUER ranging technology in a compact 3.4-ounce package. GEN II Lightwave DSP™ provides fast, precise ranging to 1,000 yards on reflective targets, while eight firearm ballistic groups and Archery Mode deliver critical shot data in the field. Lumatic™ adaptive TOLED, AMR™, SpectraCoat™, and LensArmor™ optimize visibility, ranging, and optical performance. A rechargeable battery provides up to 3,000 ranges per charge, and the QDI magnetic harness mount keeps the KILO MICRO secure and ready when you need it.

KILO™ MICRO

4X18MM MONOCULAR

- ULTRA-COMPACT 4X18MM MONOCULAR DESIGN
- LIGHTWEIGHT 3.4-OUNCE CONSTRUCTION
- GEN II LIGHTWAVE DSP™ FOR FAST, ACCURATE RANGING
- QDI MAGNETIC QUICK-DETACH HARNESS MOUNT INCLUDED
- EXTREME SHORT-RANGE ACCURACY AND RESOLUTION
- DEDICATED ARCHERY MODE
- AMR™ ANGLE MODIFIED RANGE
- EIGHT ONBOARD FIREARM BALLISTIC GROUPS
- UP TO 1,000-YARD REFLECTIVE RANGE, 800-YARD TREE RANGE, 600-YARD DEER RANGE
- BUILT-IN RECHARGEABLE BATTERY, UP TO 3,000 RANGES ON FULL CHARGE
- IP67 WATERPROOF PERFORMANCE

P365
MACH3D

The peak of performance for the ultimate concealed carry pistol.

Introducing the new P365 MACH3D, bringing a whole new level of performance and capability to the iconic P365. Featuring the advanced MACH3D compensator, which reduces muzzle rise by up to 30% for flatter, faster shooting along with a 3.4 inch bull barrel for extreme accuracy. The P365 MACH3D also features a newly designed slide, delivering greater speed and durability along with an all-new skeletonized trigger for increased control.

Built to push the P365 platform to the peak of performance, the new P365 MACH3D.

P365-MACH3D

9MM

- FACTORY EQUIPPED MACH3D COMPENSATOR ATTACHED TO A 3.4" BULL BARREL
- NITRON-COATED SLIDE FEATURING NEW AGGRESSIVE SLIDE SERRATIONS AND SIG-LOC COMPACT OPTIC-READY
- FLAT SKELETONIZED TRIGGER, EXTENDED SLIDE RELEASE AND DETACHABLE MAGAZINE FUNNEL
- XMACRO COMPACT GRIP MODULE FEATURING A STANDARD 1913 RAIL AND INTERCHANGEABLE BACKSTRAPS
- XRAY3 DAY/NIGHT FRONT AND REAR SIGHTS

ROMEO5X-AMR™ COMBO KIT
RIFLE RED DOT PAIRED WITH COMPACT MAGNIFIER

A Compact Red Dot and Magnifier System, With Automatic Modified Reticle™ Technology

Elevating the proven ROMEO5 family, the ROMEO5X-AMR™ Combo Kit pairs a compact, high-performance red dot sight with the JULIET3-MICRO AMR™ magnifier for versatile 1X to 3X performance. Featuring Automatic Modified Reticle™ technology and the Quad Ballistic Circle Dot 2.0 reticle, the system automatically transitions between reticle configurations as the magnifier is engaged or disengaged, providing an optimal sight picture across changing engagement distances. The ROMEO5X-AMR delivers parallax-free optics, 15 brightness settings, including three night-vision settings, and up to 40,000 hours of runtime from a single AAA battery with MOTAC™. The ultra-compact JULIET3-MICRO AMR features a push-button flip-to-side mount, while both optics offer rugged aluminum construction and IPX7 waterproof and fogproof performance for dependable use in demanding conditions.

P320
NIGHTSHIFT

Crafted by SIG SAUER Custom Works, The P320 NIGHTSHIFT delivers a distinctive, premium take on the P320 platform, combining performance-focused components with a striking two-tone finish.

A Platinum Cerakote optic-ready slide and SXG grip module are contrasted by Burnt Titanium PVD controls, trigger, magwell, and compensator, while custom Hogue grip panels featuring a Circle Cell pattern complete the unique aesthetic. The P320 Nightshift features a 4.6" threaded barrel fitted with a single port compensator that significantly reduces muzzle flip and felt recoil. The NIGHTSHIFT pairs unmistakable styling with the performance and shootability expected from a premium P320 configuration.
